PRIZES ARE NOT RIGHT,

The Prizes in the Grocers' Blevele Bace

Will Cause Trouble In some way it has escaped observation that the prizes put up by the gro-

cers for the bicycle race scheduled to take place at the time of their pienic tomorrow afternoon at Mozart Park, are of a character not allowed to be put up for Class A riders of the L. A. W. The rule provides that the prizes for Class A men must be jewelry, silver plate, or cycle sundries. The prizes announced do not come in this class, and any L. A. W. riders who compete for them will undoubtedly receive the same punishment meted out to the Pittsburghers who recently committed the same offonse—suspension or put in Class B. The grocers will be asked to change the prizes it is understood.

The following riders are entered in the race: Henry Holtman, Howard Schneffer, Mont Montgomery, John Monahan, Howard Smith and Thomas Schneffer.

The Income Tax Amendments by Mr. 11111 Voted Down-Committee Amendments Adopted.

Wastington, D. C., June 20 .- With the thermometer standing at 83 degrees in the senate chamber to-day the senate entered upon the thirteenth week of the tariff debate.

At the opening of the dession Mr. Allen made another ineffectual attempt to secure consideration of his resolu-lution directing the secretary of the treasury to inform the senate of the total number of persons engaged in protected industries whose wages might be affected by tariff legislation. The senate then resumed consideration of the income tax provisions of the tariff bill.

Mr. Hill withdrew the amendment he offered on Saturday to strike out the provision exempting the interest on United States bonds from the operation of the tax. His object in offering the amendment, Mr. Hill said, was to call the attention of the country to the fact that \$235,000,000 of property in government bonds were necessarily exempt from the operation of the income tax under the law, although the estensible purpose of the income tax was to reach wealth and equalize taxation. There was an enormous investment of capital which the income tax could not reach. Mr. Hill then moved to exempt state, county and municipal bonds, which was defeated. Republicans voted for it.

Mr. Hill then medified his amendment so as to confine the exemption to state bonds. This was also lost—27 to \$0.

Mr. Hill then moved to strike out the tariff bill.

"If the tax of two per cent has been paid upon its net profits by said corporation as required by this set," was agreed to.

Mr. Allison moved to add to section 50 the words: "Aud nothing herein shall apply to any corporation, company or association having a paid up capital of less than \$100,000."

Without acting on the amendment the senate at 6:10 went into executive session and five minutes later adjourned.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced at a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced tincurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment, Half's Catarrh Cure, manufactured by F. J.
